THE

INTERIM

A REPORT OF INTERIM ACTIVITY . . . MONTANA LEGISLATIVE COUNCIL . . . HELENA

MAY 1985

VOL. V, NO. 1

This issue begins the fifth volume of the Interim.

The newsletter is designed to provide a centralized source of information on the activities of the Legislature and its agencies. Legislators are the audience we aim to reach. Each member receives a copy of the newsletter. As a courtesy, copies are also sent to other elected officials and department heads of state government. Subscriptions are available to others who ask, but our goal simply is to provide legislative information to the members of the Legislature.

Articles are designed to be short and readable. Sufficient information is provided to indicate what is being done by interim groups and to allow a member to know whether to contact a legislative office for a copy of a full report for additional information.

The newsletter includes a calendar of legislative events for the two months following publication. We find that the members really use these calendars and try to rely upon them. Planning firm meeting dates is difficult, frustrating, and largely out of our control, but the members do appreciate it when it can be done. We will include a disclaimer warning of the ephemeral nature of the announced dates.

The newsletter will be used to inform you of administrative matters of interest, including information on pay, benefits, and insurance.

This is your newsletter. If you have suggestions or comments, please contact Bob Person at the Legislative Council.

HISTORY AND FINAL STATUS

The publication detailing the history and final status of every bill considered in the 1985 session will be ready for distribution by mid-June.

INTERIM COMMITTEES

MAILED NOTICE

By now each legislator should have received a mailing that indicated the studies designated for assignment by the Legislative Council at its May 18 meeting. Enclosed was a form letter to be sent to the appointing authority indicating a desire to serve on a committee. If you haven't received this mailing, be sure to contact the Council right away.

PRIORITIES

This year, the Council asked that only the top five priorities for study be listed by each member. To analyze overall priorities, several different weighting schemes were employed. In each case, the top six priorities were the same although the exact order varied slightly. Shown below are the priorities ranked according to the weighting scheme using 5 points for top priority down to 1 for 5th priority. The number of responses in each category is also shown. There were 125 responses.

ADMINISTRATIVE CODE COMMITTEE

CHAIRMAN
SELECTED The Administrative Code Committee met on April 3, and elected new officers. Rep. Gary Spaeth was elected Chairman and Sen. H. W. "Swede" Hammond was elected Vice-Chairman. Other members of the committee are Senators Pete Story, Paul Boylan, and Dick Pinsoneault, and Representatives Jim Schultz, Les Kitselman, and Kelly Addy. The Committee considered Issues 21 through 24 of the 1984 MAR and Issues 1 through 4 of the 1985 MAR. The committee also heard a request for an economic impact statement on a Department of Revenue, Liquor Division, rule concerning warehousing of wine and beer.

JUNE MEETING The Committee plans to meet in June, at a time
TBA to be announced, to consider emergency rulemaking
activities, to determine interim projects, and to
review issues of the MAR.

REVENUE OVERSIGHT COMMITTEE

APRIL 26
MEETING HELD

The Revenue Oversight Committee got an early start this interim by holding its organizational meeting on April 26, the day following the close of the session. Representative Mel Williams was elected Chairman for the 1985-86 interim, and Senator Bob Brown was elected Vice-Chairman. Breaking somewhat from tradition, the Committee appointed two Revenue Oversight Committee members as liaison to the Coal Tax Oversight Committee. Those two members are Senator Tom Towe, who has been the Revenue Oversight Committee liaison since the Committee has had a liaison, and Representative Gerry Devlin, who is serving his first interim on Revenue Oversight.

JUNE 7 The Committee set the second meeting of the
DATE SET interim for 9:00 a.m., June 7, in Room 104 of the

Capitol. The tentative agenda calls for review and adoption of a study outline for Senate Joint Resolution 14, the adoption of a meeting schedule for the interim, review of a Department of Revenue rule regarding an issue associated with the distribution of beer, and the Department's regular reports on litigation, reappraisal, and related matters.

LEGISLATIVE FINANCE COMMITTEE

MEETING JUNE 21

The Legislative Finance Committee will meet on June 21 in Room 104 of the Capitol. The two major agenda items are: (1) the 1987 Biennium Appropriations Report; and (2) the staff interim work plan. Legislators not at the meeting will be mailed an appropriation report in late June.

Near the end of the session, legislators were surveyed to determine what fiscal concerns had the highest priority. The responses given will influence how the Legislative Finance Committee sets the interim work plan. If you did not complete the survey or have thought of other fiscal concerns, please send them to the Legislative Fiscal Analyst's office promptly and they will be included as part of the potential work areas.

VEHICLE FEE FISCAL EFFECT

In Senate Bill 142, the inflation adjustment on vehicle fees was stricken. The Code Commissioner indicates that the new 61-3-533, MCA, will be codified with the inflation adjustment removed as indicated in Senate Bill 142. A vehicle less than four years of age and under 2,850 pounds will be assessed a fee of \$83, of which \$7 will be used for district courts as per Senate Bill 142, \$6 will be used for the local government block grant as per House Bill 870, and \$70 will be distributed as vehicle fees are currently. Had the inflation adjustment remained in effect, the \$70 would have been \$82 in fiscal 1986 and \$86 in 1987. The total fiscal impact of excluding the inflationary adjustment determined by LFA staff calculation is approximately \$9.5 million in the biennium, with \$1.9 million being absorbed in the foundation program and \$7.6 million affecting local governments.
